

Canine Preventive Care Plans

Fredonia Veterinary Clinic offers Preventive Care Plans for your puppy, adult, or senior dog that allow you to spread the cost of a year's worth of preventative care into predictable monthly payments. Canine Preventive Care Plans are good for your dog and your wallet!

Our Plans

Puppy includes the preventative care exams, vaccines and boosters, basic lab tests, and deworming your puppy needs during the first year of life.

Canine Silver includes the preventative care exams, vaccines, and screening tests your dog needs to stay healthy during the prime years of life.

Canine Gold is our most comprehensive plan, which ensures we're looking at the types of diseases and conditions that affect dogs in the senior stage of life.

Added bonus – Heartgard and Nexgard are available to plan members at last year's best pricing. That, along with a \$50 prepaid Visa card from our supplier when adding 12 months of Heartgard and Nexgard, brings almost \$100 in savings!

Why Preventive Care Plans?

Our Canine Preventive Care Plans provide all the recommended veterinary services for one year, with the option to divide the cost over 12 affordable monthly payments. You can upgrade your plan as your dog ages. Research shows that dogs that receive regular wellness exams and follow preventive medicine recommendations live longer, healthier lives!

- ✓ Avoid preventable illness
- ✓ Minimize costly emergency visits
- ✓ Affordable monthly payments
- ✓ Happier, healthier years with your dog!

At Fredonia Veterinary Clinic, we look forward to helping you provide your furry family member with the best possible care at every stage of life. We've partnered with Petly® Plans, brought to you by IDEXX, to help us make that care more affordable and convenient for you.

Choose from three great plans:
