

Feline Preventive Care Plans

Fredonia Veterinary Clinic offers Preventive Care Plans for your kitten, adult, or senior cat that allow you to spread the cost of a year's worth of preventative care into predictable monthly payments. Feline Preventive Care Plans are good for your cat and your wallet!

Our Plans

Kitten includes the preventative care exams, vaccines and boosters, basic lab tests, and deworming your kitten needs during the first year of life.

Feline Silver includes the preventative care exams, vaccines, and screening tests your cat needs to stay healthy during the prime years of life.

Feline Gold is our most comprehensive plan, which ensures we're looking at the types of diseases and conditions that affect cats in the senior stage of life.

Added bonus – We've also included unlimited soft paws (nail caps) application or nail trims whenever needed!

Why Preventive Care Plans?

Our Feline Preventive Care Plans provide all the recommended veterinary services for one year, with the option to divide the cost over 12 affordable monthly payments. You can upgrade your plan as your cat ages. Research shows that cats that receive regular wellness exams and follow preventive medicine recommendations live longer, healthier lives!

- ✓ Avoid preventable illness
- ✓ Minimize costly emergency visits
- ✓ Affordable monthly payments
- ✓ Happier, healthier years with your cat!

At Fredonia Veterinary Clinic, we look forward to helping you provide your furry family member with the best possible care at every stage of life. We've partnered with Petly® Plans, brought to you by IDEXX, to help us make that care more affordable and convenient for you.

Choose from three great plans:

Included Services	Kitten	Silver	Gold
